## **Highway Asset Records 2024-25**

# Schedule of Charges and Access to Information under the Environmental Information Regulations 2004

#### Notes for customers

- 1. This Schedule of Charges details how customers can access Highway Records information held by the County Council and services that it provides on an enhanced (or commercial) basis, and under the Environmental Information Regulations 2004 (EIR).
- 2. Please note that VAT applies to all of our enhanced services, including CON29 searches. Details of where VAT is applied are shown below. VAT does not apply to applications made under EIR.
- 3. Common circumstances where charges are payable are detailed below. Charges will not generally be waived, but each request will be considered and charged appropriately on the basis of its particular circumstances. The County Council reserves the right to amend its fees where it is appropriate to do so, or where it is expedient for the most efficient delivery of our services. Where a request is made for a particular service which is not published below but for which it is reasonable for the County Council to recover its costs, the County Council will provide a quotation based on the hourly rates set out below.
- 4. The method by which the County Council has calculated its charges can be viewed at: https://www.cambridgeshire.gov.uk/business/highway-searches
- 5. Information requested under the EIR will be supplied as soon as reasonably possible within 20 working days of being accepted. Alternatively, for many types of information, customers can request information under one of the County Council's enhanced services (see the Schedule of Charges below). The County Council prioritises its enhanced services and seeks to respond within 5 working days, or as advised.
- 6. Please note that where charges apply, payment is required in advance online at http://www.cambridgeshire.gov.uk/business/highway-searches. The most commonly requested services, including certain EIR requests, are available for application via this page. Alternatively, where a quotation is required for work carried out that has not been specified below, or for less regularly requested services, payment can be made via the 'pre-agreed payment to asset information' form.
- 7. Customers are referred to their rights under Regulations 11 and 18 of the Environmental Information Regulations 2004 http://www.legislation.gov.uk/uksi/2004/3391/contents/made
- 8. Information released by the County Council under the EIR services listed here is not checked for accuracy or otherwise verified by Council officers. It is an extract of raw data on the date at which a given request is answered. Users rely upon the data at their own risk and the County Council accepts no responsibility for any misuse or misinterpretation of the data. Customers wishing to request further information, checked records, or certified copies of documents, should apply using one of the enhanced commercial services.
